Boxhead 2Play Rooms is an amazing survival game with retro blocky graphics and fun gameplay. There are three modes of play – single play, collaboration and death matching. One game allows you to play survival mode alone, the cooperative allows you to play a split screen with a friend, and the death match allows you to fight against your friend! The goal is simple – you must survive as long as possible against hordes of zombies and use various weapons to destroy the undead. At each level there is a series of explosive crates that can be destroyed for an area of damage effect – be careful though if you stand too close you will injure yourself too. There are also an th of red crates that you can pick up. These contain additional ammunition for your weapons. When you kill zombies, you straighten up, and when you level yourself, you get extra weapons and bonus injuries. The weapon includes a gun, a shotgun, an Uzi and even grenades. Every once in a while, a stronger red zombie appears. This zombie can take a lot of damage and also shoot fireballs, so be careful and take it down quickly! How many waves can you spend on and what high score can you register for? Features of Single Player and Split Screen Gameplay More than 10 Different Weapons and Upgrades Fight Hordes of Zombies Select Between Four Different Characters Release Date May 2007 Developer Boxhead 2Play Rooms was created by Sean Cooper, who also developed a range of other browser games, including Boxhead The Zombie Wars, Boxhead More Rooms, and Boxhead Halloween Special.
